

Middelhavsessens Mediterranean Essence

Ønsket om å få mest mulig ut av hver dag, å reise på en unik måte og kose seg uten å se på klokken, middelhavsessensen er en del av Benimar.

The desire to make the most of every day, to travel in a unique way and enjoy yourself without looking at the clock, the Mediterranean essence is part of Benimar.

HISTORIEN / HISTORY

Litt om oss...

A little bit about us...

Vår kunnskap og innsats har gjort oss til et referansemerke i bobilsektoren, og posisjonert oss som den ubestridte lederen på det spanske markedet i svært mange år.

I 2002 ble Benimar en del av Trigano-familien, en av de mest konsoliderte forretningsgruppene i sektoren. Det betydde en fullstendig endring i produksjonen av bobilene våre, fra å være hovedsakelig håndlaget til masseproduksjonslinjen vi kjenner i dag, som garanterer de høyeste kvalitetsstandardene.

Vårt industrianlegg ligger i middelhavsbyen Peñíscola, et privilegert sted hvor vi har mer enn 130 000 m2 med fasiliteter hvor vi designer og produserer alle våre bobiler. Den doble ISO 9001 / 14001-sertifiseringen demonstrerer vår streben etter fremtreffelighet, både når det gjelder kvaliteten og påliteligheten til våre kjøretøy, samt vår innsats for å oppnå en produksjon som i økende grad er forpliktet til samfunnet og miljøet.

Med denne kolleksjonen søker vi å overgå oss selv og holde løftet som markerer vår eksistensberettigelse, å fortsette å overraske kundene våre, alltid garantere maksimal komfort og sikkerhet om bord på din Benimar, slik at du vil være like stolt av å kjøre den som vi er av å produsere den.

The Benimar brand has more than 40 years' experience in the manufacture of leisure vehicles. Our know-how and effort have made us a benchmark brand in the motorhome sector, positioning us as the undisputed leader in the Spanish market for more than a decade.

In 2002, Benimar became part of the Trigano family, one of the most consolidated business groups in the sector. That meant a 180° change in the manufacturing of our motorhomes, going from being mainly handmade to the mass production line we know today, which guarantees the highest quality standards.

Our industrial plant is located in the Mediterranean city of Peñíscola, a privileged site where we have more than 130,000m2 of facilities where we design and manufacture all our motorhomes.

The dual ISO 9001 / 14001 certification demonstrates our pursuit of excellence both in the quality and reliability of our vehicles as well as our efforts to achieve a production that is increasingly committed to society and the environment.

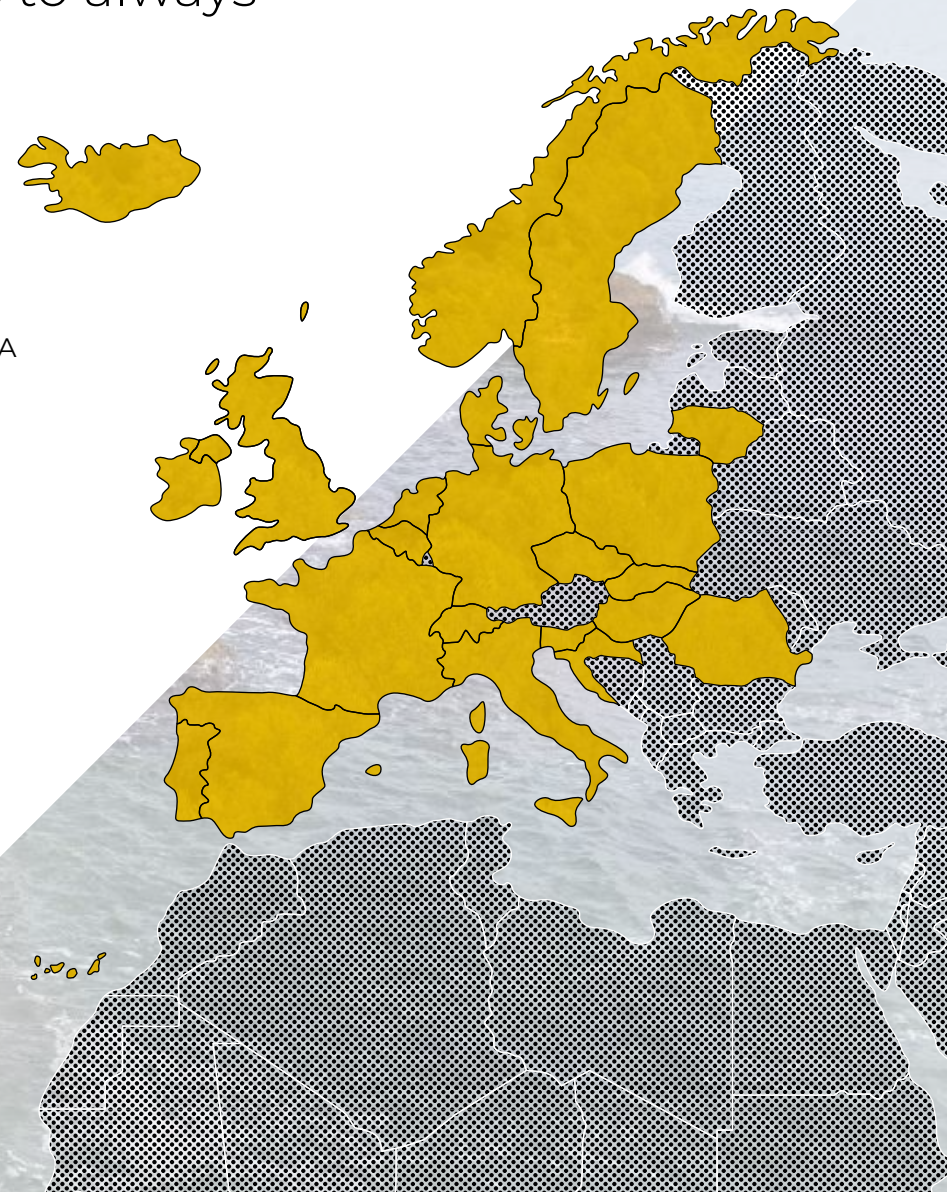

With this collection we seek to surpass ourselves and keep the promise that marks our raison d'être, to continue surprising our customers, always guaranteeing maximum comfort and safety on board your Benimar, so that you will be as proud to drive it as we are to manufacture it.

Tilstede i 28 land for alltid å være i nærheten hvis du trenger oss.
Present in 28 countries to always be close if you need us.

Engasjement for planeten er en del av vårt DNA.
Commitment to the planet is part of our DNA.

Bærekraft og innovasjon
Sustainability and innovation

ISO 14001-sertifiseringen garanterer bærekraften i produksjonsprosessen vår, og den konstante gjennomgangen av prosedyrene våre søker vi å redusere vårt karbonfotavtrykk så mye som mulig. / The ISO 14001 certification guarantees the sustainability of our production process and the constant review of our procedures seeks to reduce our carbon footprint as much as possible.

Bruk av ressurser
Use of resources

Vi minimerer påvirkningen av kjøretøyene våre på miljøet ved å kontrollere forbruk, CO2-utslipp under produksjon og valg av materialer. / We minimise the impact of our vehicles on the environment by controlling consumption, CO2 emissions during manufacture and the choice of materials.

Engasjement for fornybar energi
Commitment to renewable energy

Mesteparten av energien som brukes til å produsere din Benimar bobil kommer fra bærekraftige energikilder. / Most of the energy used to manufacture your Benimar motorhome comes from sustainable energy sources.

En ny sjanse
A second chance

50 % av avfallet som genereres i produksjonen resirkuleres, og vi er forpliktet til å øke denne prosentandelen. / 50% of the waste generated in production is recycled and we are committed to increasing this percentage.

Viktigheten av vann
The importance of water

Vårt industrianlegg har et eget vannbehandlingsanlegg som lar oss gjenbruke vannet som kreves for produktkontroll uten å sløse med det. / Our industrial plant has its own water treatment plant that allows us to reuse the water required for product control without wasting it.

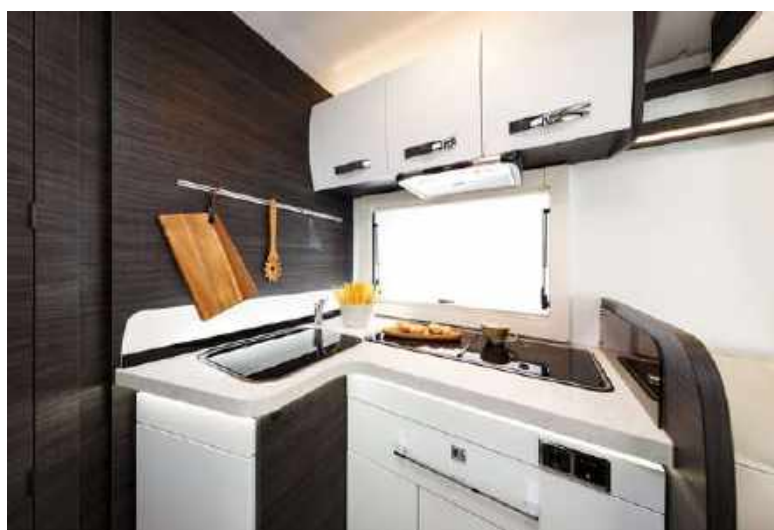

Lokale leverandører
Local suppliers

Hvert år utvider vi antallet nasjonale og lokale leverandører for å redusere reiser og minimere utslipp. / Each year we expand the number of national and local suppliers to reduce travel and minimise emissions.

Lokal handling, globalt resultat
Local action, global result

Vi streber etter å optimalisere kjøretøyene våre så mye som mulig for effektivt og ansvarlig drivstofforbruk. / We strive to optimise our vehicles as much as possible for efficient and responsible fuel consumption.

Hvorfor Benimar? Why Benimar?

Vår erfaring, vår største styrke.
Our experience, our greatest strength.

Å produsere kjøretøy med utmerkede egenskaper, nøye uttenkt design og å forutse våre kunders behov, har alltid vært vår inspirasjon til å utmerke oss i hver serie / Manufacturing vehicles with excellent features, careful design and anticipating our customers' needs, has always been our inspiration to excel with each range:

- Stort utvalg av planløsninger. / Wide variety of layouts.
- Ford og Fiat chassis. / Ford and Fiat chassis.
- Moderne interiør og eksteriørdesign. / Modern interior and exterior design.
- Utvalg av interjormiljøer med OEKO-TEX®-sertifisering. / Selection of interior environments with OEKO-TEX® certification.
- Design fokusert på å få mest mulig naturlig lys i interiøret. / Design focused on getting the most natural light in the interior.
- Premium utstyr som standard. / Premium equipment as standard.
- Ripebestandig innvendig finish i tre-effekt. / Scratch-resistant wood-effect interior finishes.
- Energieffektivitet (ISB-teknologi-Isolasjonssystem Benimar) / Energy efficiency (ISB Technology-Isolation System Benimar)
- Komplette valgfrie pakker. / Complete optional packs.
- Smart oppbevaringsystem. / Smart storage system.
- Unike, eksklusive miljøer i hver serie. / Unique, exclusive environments in each range.

I.S.B. Cell

ISB (Isolation System Benimar) er systemet vi har utviklet for å garantere maksimal isolasjon, komfort og holdbarhet til bobilen din. / ISB (Isolation System Benimar) is the system we have developed to guarantee the maximum insulation, comfort and durability of your motorhome.

ISB-cellen som brukes til å bygge kupeen er laget av vannavstøtende materialer, og eliminerer nesten alt treverket, noe som øker isolasjonen og reduserer kjøretøyets vekt. / The ISB cell used to build the passenger compartment is made of water-repellent materials, eliminating almost all of the wood, which increases insulation and reduces the vehicle's weight.

Overlegen isolasjon takket være at det er produsert i XPS med høy tetthet med dobbel tykkelse på gulv, tak og vegger. / Superior insulation thanks to being manufactured in high-density XPS with double thickness on the floor, ceiling and walls.

ANGLES :

- Aluminium profile.
